## Practice Update

As we move through the year, our team and services at Wedmore Dental Practice continue to grow to meet the increasing demand for highquality dental care.

We've expanded our availability with Hannah and Agata, meaning we now have more dentist appointments available and are welcoming new patients to the practice. We're also pleased to offer additional hygienist appointments with Alex, our new Dental Therapist, who has recently joined the team.

As a Dental Therapist, Alex is able to provide both routine hygiene care and a range of treatments including fillings, preventative care, and oral health advice, supporting our dentists in delivering more accessible, comprehensive care for our patients.

In addition, we've expanded our home visit service radius, with Agata now able to travel within a 60 minute drive radius from the practice, to provide dental care for patients who are unable to visit the practice in person.

Our friendly reception team is always here to assist you with your dental needs. Whether you'd like to book a routine check-up or need help with a dental concern, we're just a call or email away - or feel free to pop in. You can also book appointments online via our website.

For more information about the services we provide, including pricing and general details about the practice, please visit our website:

www.wedmoredental.co.uk

Alternatively, we're happy to provide you with a Patient Information Booklet upon request.

We look forward to seeing you soon!

Charlotte Stockwell Practice Manager

23个公司

Charlotte joined us in July as our new Practice Manager. She began her dental career as a Dental Nurse, qualifying in 2014, and has worked her way up to management through dedication and experience.

Her strong clinical background means she truly understands how to support both our team and patients, and we're thrilled to have her on board.

Charlotte joins our management team, working closely with Jen, our Practice Principal, and Katie, our Business Development Manager, to ensure we continue providing the high-quality care you expect from us.

### Alex Sherwood Dental Therapist/Hygienist

Alex has recently joined us as a Dental Therapist/Hygienist. With over 15 years of experience in the dental industry, Alex began her career as a Dental Nurse and has now qualified as a Dental Therapist.

As a Dental Therapist/Hygienist, Alex is able to provide a wide range of care including preventive treatments, oral health education, and certain restorative procedures such as fillings and treatment of children's teeth.

Alex will be supporting our dentists by delivering hygienist treatments and playing a key role in maintaining and improving our patients' oral health.

#### Joyful News from Our Practice Family!

We're absolutely thrilled to share some wonderful news, our Practice Principal, Jen, is expecting her third beautiful baby this coming December.

Jen will continue caring for patients until November, after which she'll be taking a well-deserved maternity break to soak up some precious time with her growing family.

In the meantime, our fabulous dentists Ali, Agata, and Hannah will be extending their hours to warmly welcome and care for Jen's patients during her leave. With their skill, compassion, and dedication, you can be confident that you'll continue to receive the same high standard of care and attention.

If you currently have an appointment with Jen from November onward, there's no need to worry, we'll be in touch if your appointment needs to be rescheduled or transferred to one of our other wonderful dentists.

Thank you so much for your continued trust and support. Please join us in sending Jen and her family your warmest wishes as they prepare for this beautiful new chapter!

### Dental Care @ Home

At Wedmore Dental Practice, our vision is to "sharing our passion for health" and we're proud to provide personalised care for every patient.

Recognising the limited availability of home-visit dental services in Somerset, our Practice Principal, Jennifer Morecroft, introduced Wedmore Dental Care @ Home - a private domiciliary service designed for patients who are unable to attend the practice in person.

Dr Agata Milewicz, one of our experienced Dental Associates, provides dental check-ups and treatments in the comfort of your own home or care setting.

Our home-visit service offers a convenient and compassionate solution for patients who may find it difficult to travel. Whether due to mobility challenges, chronic illness, or age-related conditions, receiving dental care at home ensures continuity of treatment without compromising comfort or dignity. It's a tailored approach that brings professional, high-quality care directly to you.

For more information on available treatments, visit our website and see the "Dental Care @ Home" page, or call us on 01934 713013 to speak with our friendly reception team.

# Facial Aesthetics @ Wedmore Dental

Facial aesthetics are non-surgical treatments that help rejuvenate the face by softening lines, reducing wrinkles, and enhancing facial contours. These safe injectable treatments offer naturallooking results with minimal downtime.

Dentists are highly suited to perform these treatments due to their expert knowledge of facial anatomy and precision in delivering delicate procedures.

#### Our Treatments Include:

- · Anti-ageing injections
- Skin enhancer injections
- TMJ (Jaw Joint Treatment)

#### What is TMJ Treatment?

TMJ disorders can cause jaw pain, headaches, and facial tension, often from clenching or grinding. Muscle-relaxing injections help ease this tension, offering a safe, effective, non-surgical solution.

Dr. Hannah York one of our Practice Dental Associates is fully qualified in facial aesthetics and is a trusted and popular clinician with many of our patients. Hanna has recently increased her clinic hours and is now welcoming both new patients and those interested in facial aesthetic treatments.
